I write by way of an update on this incident. We are today issuing the statement below:

**Statement by Lancet Homes Ltd & Modlar Ltd.**

Following the incident at our development site at Allithwaite Road, Kent's Bank, on the afternoon of Friday 27th September, the matter was reported to the Health & Safety Executive (HSE), notifying the HSE of all parties involved, including ground works contractor Metcalfe Civil Engineering, and specialist explosives contractor BAM Ritchies.

The HSE appointed an inspector who met a number of times with all parties involved, raised queries of the parties involved, and carried out numerous site inspections. All four parties co-operated fully with the HSE inspections, meetings and requests for information. The outcome of the exercise was the issuing of advice to the parties involved, with a series of actions to prevent such an incident occurring again. The HSE have now concluded their inspections, and we have been advised that the case is now closed.

In addition to specific procedural points relating to blasting, lessons learnt include notifying residents and the emergency services in advance. We can confirm however that no further blasts are planned for this site.

All parties involved are committed to safe working practices, and the safety of people both on site and affected by site operations.

# TOWN COUNCIL OF GRANGE-OVER-SANDS

We are grateful for the patience and co-operation of all those involved during the exercise. Clearly, valuable lessons have been learnt.

## **Update from South Lakes Housing**

Members noted an update received on 15 October 2024 from South Lakes Housing:

We are writing to keep you updated on the progress regarding the redevelopment of Yewbarrow Lodge.

To allow better access to the site for large vehicles and machinery, Westmorland and Furness Council are arranging for tree surgeons to attend to some of the trees that overhang the road leading to Yewbarrow Estate. This will involve removing branches that currently restrict the access of larger/taller vehicles required on site, to avoid damage to both the trees and vehicles. We will not be removing any of these trees during the process of the redevelopment.

You will have noticed that demolition works by L&W Wilson are currently underway at Yewbarrow Lodge. They have started with the removal of internal fittings, before they move on to the removal of external materials. All being well, we hope that the demolition works will be fully completed by Christmas this year.

If you have any concerns regarding the redevelopment works, please get in touch. We appreciate your continued patience throughout this process.
