Outline Planning

Response Submitted: OBJECTION

Grange Town Council objects to this application on the following grounds:

- 1. Size and Scale: The proposed development is too big for the site and out of keeping with local scale and proportion. The proposed site plan shows much of the currently wooded area as designated for 4/5 bed house and garage. It is not possible to judge whether the site can accommodate this size of dwelling in this position until the applicant has had the Tree Survey and the Phase 1 Habitat Survey completed as recommended in the Planning Officer's previous advice it may be that particular trees or sections of habitat need safeguarding, in which case the house footprint may have to change or be moved.
- Unneighbourly Development: Impact on Residents: The applicant has failed to account the impact
 on residents to the rear of the site, where the full two storeys would be visible, very close and
 overbearing to the occupiers of Chailey. The development would mean an unacceptable loss of
 privacy.
- 3. **Wildlife:** Bats are present in the area; there is a veteran beech tree, (a species favoured by bats) and there is water on the site for part of the year at least, as frogs have been heard. A Bat Survey may be in order at this stage.
- 4. **Drainage:** the applicant has not considered the management of storm water runoff down the drive onto the road from the increased amount of hardstanding.

Response from Grange Town Council SL/2018/0144

OBJECTION

Grange Town Council OBJECTS to this application on the following grounds:

1. The application is outside the development boundary for Grange-over-Sands. It does not comply with the SLDC Local Plan. It does not comply with the Grange-over-Sands Neighbourhood Plan, which is now in force and must be used by SLDC to arrive at planning decisions.
The Neighbourhood Plan recognises that there are sufficient allocated sites to meet the local housing quota and does not support building market housing outside the development boundary: 'The Neighbourhood Plan does not consider it appropriate to allocate further sites for housing development. Any further new housing development should be restricted to infill development within the development boundary of the town as set out in SLDC's Local Plan, or exception sites'.

NPPF 2018 para 12: 'Where a planning application conflicts with an up to date development plan (including any neighbourhood plans that form part of the development plan) permission should not usually be granted'.

NPPF 2018 para 30: 'Once a neighbourhood plan has been brought into force, the policies it contains take precedence over existing non-strategic policies in a local plan covering the neighbourhood area'. This site is not part of the allocations for the area and is non-strategic.

The developer claims that the reasons for putting the Graythwaite Manor site outside the development boundary have been identified and addressed. This is not the case.

The actual reason for excluding the site was that it was an operating hotel which "continues to operate successfully", see Local Plan Sustainability Analysis for Grange over Sands.

Any measures to protect landscape or tree cover are not relevant.

2. There is no evidence that the Protected Limestone Pavement and its associated flora can be safeguarded during and after the build process.

The developer has not shown that the limestone pavement and its associated flora will not be detrimentally affected by the very close new buildings and gardens, particularly Area 1, where the gardens of mews houses back directly onto limestone pavement and woodland.

It is good practice to leave a 15 metre buffer in such areas; the notes for similar sites in the SLDC Fact Files make this clear, as does the advice from Natural England and the Woodland Trust.

The buffer might be provided by moving the buildings forward, removing the gardens and removing permitted development rights in this block.

The existing site design does not comply with **NPPF para 175:** 'development resulting in the loss or deterioration of irreplaceable habitats should be refused unless there are wholly exceptional reasons'. While it may be desirable to preserve the main Graythwaite building, it is not a wholly exceptional circumstance, and nothing demands building so close to the limestone pavement.

There is no impact study to identify and remove any detrimental edge effects resulting from the unacceptable closeness and height of the Area 1 buildings, which will alter the amount of daylight and rainfall along the edge of the pavement. This may kill or weaken some rare flora.

The potential deterioration of limestone flora is not addressed in the tree survey, nor in the landscape planting plans, where plants have not been assessed for their potential to seed into the limestone or hybridize with limestone flora.

There is no possible control over what people might grow in the gardens backing onto the limestone, which is problematic.

Cotoneaster is locally invasive, Alchemilla (in the planting plan) is a prolific invasive seeder, and Spanish Bluebells are hybridizing nationally with the native species as a result of domestic planting.

The limestone pavement is **irreplaceable habitat**, whose value is mainly in the flora it supports, and it is not acceptable to make a planning decision without expert opinion and identified corrective action. **NPPF para**177: 'the presumption in favour of sustainable development does not apply where developments requiring appropriate assessment of impact on priority habitats site is being planned or determined'.

3. There is no affordable housing proposed for the development and no evidence of viability study as required by SLDC, the Neighbourhood Plan and the NPPF.

NPPF para 62: 'Where a need for affordable housing is identified, planning policies should specify the type of affordable housing required and expect it to be met on site unless:

- a) off-site provision or an appropriate financial contribution in lieu can be robustly justified by viability study or new evidence;
- b) the agreed approach contributes to the objective of creating mixed and balanced communities'

Neither a) nor b) applies here

NPPF para 57: 'the applicant must demonstrate that circumstances justify the need for a viability assessment. All viability assessments should reflect the recommended approach in national planning quidance, including standardized inputs, and should be made publicly available'.

The developer's personal circumstances and skillsets are irrelevant to this requirement.

The SLDC Affordable Housing Team do not support a market-only housing mix.

There is clear evidence that the area needs affordable housing, there is no issue with Registered Social landlords buying properties and the site is well located for young families.

One of the main messages from residents during the formation of the Neighbourhood Plan was the need for affordable housing.

There are also too many apartments in the mix, which does not meet policy 8 of the Neighbourhood Plan. Local estate agents have commented that newcomers are not looking to buy properties with high or unpredictable maintenance charges, and it is contrary to equalities policy locally and nationally to use maintenance charges as a tool for social exclusion.

NPPF para 64: 'Where major development involving housing provision is proposed, planning policies and decisions should expect at least 10% of the homes to be available for affordable home owners unless they are built to rent, specialist accommodation, self-build, all affordable, an exception site'.

4. The applicant has made much of the benefits of restoring the Graythwaite building. The NPPF states:

Para 202: 'LPAs should assess whether the benefits of a proposal for enabling development which would otherwise conflict with planning policies but which would secure the future conservation of a heritage asset, outweigh the disbenefits of departing from those policies'.

The outstanding disbenefits of the current application are outlined above. We believe they are major and sufficient for the application to be rejected.

4. Notice of Appeal – Members to note that an appeal has been made to the Secretary of State (Planning Inspectorate) in relation to the following item:

SL/2015/0994 - Monton, Cart Lane

To note: The Planning Inspectorate's Appeal Decision dated 2nd October 2018 (circulated to Members prior to meeting)

OBJECTION

Grange Town Council objects on the following grounds:

- 1. No reason is given for felling any of the trees;
- 2. Some of the trees are not identified;
- 3. It is not clear what the application means by 're-planting';
- 4. Particularly, the Copper Beech is a significant tree of character in a Conservation Area.

c. Cllr. Thomas - Victoria Hall Support Group

The group continues to work hard, holding events and fundraising. A very successful Heritage Open Day was held with guided tours. Between 70 and 80 people toured the building, some local but people also came from Arnside, Kendal, Lancaster, Liverpool and Burnley among other places. Two new members were added to the membership list of those interested in future events and helping on occasion. A good profit was made on refreshments especially as there was no outlay due to a voucher received from the Co-op.

There have also been the usual monthly Bingo and Film nights as well as a Crafts and Antiques Fair. The next big event will be the 'Swing Commanders' on Saturday 13 October, advertised as the best Swing band in Europe!

The film 'Beirut' will be shown on October 25 at 7pm.

The group received a cheque for £3,000 from the outgoing Edwardian Committee and this will be used towards the upgrading of the Hall sound system. A 'thank you' event for the sponsors of the balcony seats will be held on Saturday 20 October with refreshments provided by the Co-op.
